

Author Content With Flair

Go from static...to **DRAMATIC** with our authoring tools that allow you to create a host of resources using videos, simulations, instant assessments, and more!

Upgrade static text and images with interactive widgets and formative assessments that engage students. We can import a large volume of resources from a variety of different sources, so you can bring your new digital products to market as quickly as possible.

- ✓ Dozens of built-in widgets
- ✓ Author beautiful interactive content
- ✓ Integrate browser based resources
- ✓ Custom widgets flow with content
- ✓ CSS Stylesheet Control

IP Protection ... Simplified

Our sophisticated *access control system* provides IP Protection you can bank on!

Designed to ensure your content doesn't fall into the wrong hands, Cosmos allows you to control downloads, set license expiration dates, prohibit sharing, and manage access at any level.

- ✓ Set license expiration dates
- ✓ Manage access at any level
- ✓ Sharing not permitted!
- ✓ Control downloads
- ✓ No 3rd Party software required

Effortlessly Monetize Assets

Monetize your creations quickly! Whether you publish content consistently, or just have one standalone piece, with Cosmos, creating product subscriptions (with a licensing start and end date) is a snap.

Setup is fast and easy, self on-boarding is a cinch, and integrating with SSO providers (e.g. Google, Microsoft) can be completed in less than 5 minutes.

- ✓ Adopt a subscription model
- ✓ Streamline administrative processes
- ✓ Run multiple product variations
- ✓ Shorten revenue cycles
- ✓ Take payments from around the world

Powerful Reporting = User Insights

Monitor and analyze client usage with detailed statistics. Understanding client interaction with a product is critical to improving effectiveness and user experience.

Cosmos data helps uncover sticking points and allows you to closely monitor product usage information.

- ✓ Identify your power users
- ✓ Act quickly & hone best practice with detailed statistics
- ✓ Usage breakdown by client or product
- ✓ Looking for something specific? Let's discuss custom analytic reporting!

Just For Educators

Create A Seamless Experience For Teachers & Students!

Whether you're delivering ebooks, assessments, or something totally different, curriculum in Cosmos can be integrated with any major LMS to provide a seamless experience for teachers and students.
