

Create A Seamless Experience For Teachers & Students!

LMS Integration

Uniquely designed for Educators, Cosmos integrates with every major LMS!

Whether you're delivering eBooks, assessments, or something totally different, curriculum in Cosmos can be integrated with your LMS to provide a seamless experience for teachers and students.

No LMS? No Problem!

Simple alternatives available for non-LMS clients.

Feature Parity Between Platforms

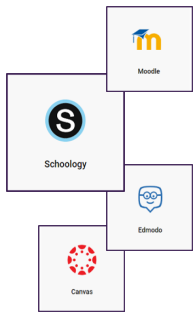

Content remains consistent regardless of differing features of any particular LMS, delivering a consistent experience for teachers and students.

Deliver Custom Learning Experiences

Author rich digital resources with peace of mind knowing your digital content will integrate seamlessly into all supported LMS platforms.

Instant Grade Sync

Student grades & performance data are seamlessly relayed back to supported / connected LMS's.

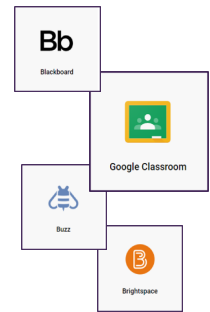

No More Large Course Backups

With one click, content is converted to LMS's and assigned to teachers. Say "So Long" to restoring large course backups!

Connect To One LMS, Or Many!

Cosmos supports the use of multiple LMSs within a school or district environment.

Quick & Easy On-boarding

Effortless Admin Set-up allows clients large and small to be ready to go in as little as 5 minutes with the help of a single admin.

No more Spreadsheets?

Music to our ears!

IP Protection You Can Bank On

Digital resources do not leave the Cosmos platform, even when integrated into Learning Management Systems. To this end, clients cannot share your products with unauthorized users.

Know Your Audience

Understanding teacher and student interaction with your content is critical to improving effectiveness and user experience. Cosmos analytics help uncover sticking points that may be experienced so you may remedy any issues, hone best practices, and ensure long-term customer success.
